

AFTER

"I feel way more confident now. I'm having so much fun picking out different tops/dresses/bikinis now that I don't have to worry about my bra. I've never bounced so much before in my life!"

BEFORE

BUSTING OUT!

Consultation

"Since I was 12, I've wanted Barbie's boobs. There was the illusion that I had DDs with the help of Victoria's Secret bras. I just got tired of faking it and decided to go ahead and get the 'rill' deal."

Preparation

"It was surprisingly less painful than I anticipated. I had an incredible surgeon, Dr. Stuart Linder, not to mention what a good nurse I had in my hubby, Doug."

Implantation

"The operation took about an hour. I woke up and there I was, laying in the hospital bed with great boobies! They're beautiful, bouncy and bountiful!"
